

Thank you for contacting ElderHelp! In response to your inquiry regarding affordable housing options, we would like to share the following resources with you:

HomeShare

HomeShare is a program run by ElderHelp, through assistance provided by the San Diego Housing Commission. This program facilitates matches between those that would like a roommate, and those in the community that are looking for affordable housing. Those that move into a home have the choice between providing services in lieu of rent, or simply by paying rent. Please contact ElderHelp for more information about HomeShare. See the brochure included.

Affordable Housing Complexes

The packet included (also available on ElderHelp's website) is a listing of affordable housing complexes, broken up by region throughout the county. Please note, some complexes are specifically for the 55+ population, disabled, or families. In order to find out about rents, availability, wait lists and application procedures, please contact the complex directly. ElderHelp does not endorse any particular complex; we are simply distributing this list as a community service.

Long Term Community Placements

If you or your loved one is interested in exploring the world of board and care homes, assisted living or nursing home communities, please contact one of our trusted Placement Specialists. These individuals can provide more information, set up tours, and assist you with learning about the moving process.
